PLEASE SEE IMPORTANT NOTES ON THESE PRICES OVERLEAF

Glossy paper and card

We can print on Xerox Colotech+ gloss 120gsm paper or 250gsm card, and Xerox Colotech+ supergloss 250gsm card. Note that the supergloss coating is only on one side of the sheet, the other side is matt. As the laser printing we use has a matt finish, we do not recommend using either gloss card if you have a photo/image in the background as this loses the gloss effect.

For both types of printing there are two tables of prices:

- ❖ paper and thin card (up to 160gsm) - these are zero rated for VAT
- ❖ thick card (200gsm and over) - these are standard rated for VAT (the prices shown include VAT)

Important points to note:

- ❖ If you require colour on one side and mono on the reverse, simply add the two single sided prices together, BUT for thick card prices, also deduct £1.23 per 100 A6.
- ❖ If you require A5 flyers, use the price for double the number of A6, e.g. if you need 250 A5 use the price for 500 A6.
- ❖ If you require A7 flyers, use the price for half the number of A6, e.g. if you need 1000 A7 use the price for 500 A6.
- ❖ If you want coloured 80gsm paper, add 1p per A4 sheet, so divide the number of A6 by 4 and that's the add-on cost in pence.
- ❖ If you want coloured 160gsm thin card, add 3p per A4 sheet, so divide the quantity of A6 by 4 then multiply by 3 and that's the add-on cost in pence.
- ❖ Our prices include a charge of £1 per side (£1.15 inc VAT for thick card) to make up a master copy from a single flyer design. If you want to save a pound and make up the master yourself, lay out 4 copies of the flyer on an A4, keeping 5mm away from the outside edge of the A4, and 10mm between each flyer so that when we cut them out you end up with an even 5mm all around. If you want printing to the edge, we must set this up on our template to ensure correct results. There are PDF templates on the flyers guideline page on our website.
- ❖ If you require flyers printed to the edge then there will be a surcharge made for the additional cutting required on top of the printing price above. This is £1 per 100 A6 or part thereof (£1.15 inc VAT for flyers on thick card).
